TECHNICAL PROFICIENCY

- Cloud – Azure, AWS
- Containerization – Docker, Kubernetes, OpenShift
- Version Control – Git, Bitbucket
- Build Tool - Maven
- Automation – Ansible, HELM, Terraform.
- CI/CD – Azure DevOps, Jenkins
- Monitoring Tools – Prometheus, Grafana, Dynatrace
- Databases – Oracle, PostgreSQL
- OS – Linux, Windows

- Hindi: Intermediate
- German: Beginner (A1)

Highly motivated and results-oriented **SRE/Cloud DevOps Engineer** with **10 years of experience** in **Azure cloud & Devops** environments, building, automating, and supporting enterprise cloud solutions and applications. Skilled in designing scalable, reliable solutions, implementing **CI/CD** pipelines, **Infrastructure as Code** (IaC), **Kubernetes** and automation to improve operational efficiency. Proficient in troubleshooting complex technical issues, ensuring high application availability, mentoring junior engineers, and collaborating with cross-functional teams to successfully deliver critical

CERTIFICATIONS

- Certified Kubernetes Administrator (Jan 2024 - Present) - https://www.credly.com/badges/9acc0d0b-6920-4e74-9375-e108f052e4c9/public_url
- AZ-104 Microsoft Azure Administrator Certified - <https://learn.microsoft.com/api/credentials/share/en-us/SaiBhargavaGudi-6545/A67B5678AD345849?sharingId=3F5EFA6AC1D8F853>
- AZ- 900 Azure Fundamentals Certified

PROFESSIONAL EXPERIENCE

TATA CONSULTANCY SERVICES (CLIENT- SIEMENS, INNOMOTICS) | HYDERABAD, INDIA

TECHNICAL LEAD

March 2025 – Till Now

- Managed and optimized Azure resources including Virtual Machines, Storage Accounts, Networking, and RBAC policies to ensure secure and scalable cloud environments.
- Deployed and managed **SAP HANA** Azure Virtual Machines ensuring compliance with SAP sizing and performance standards.
- Enhanced **Azure cloud security** by implementing RBAC, NSGs, Azure Key Vault, Microsoft Defender for Cloud, Azure Policy and security monitoring best practices.
- Developed **PowerShell** scripts with Azure Automation Runbooks to automate VM and database backup reporting.
- Automated orphaned snapshot and disk cleanup using PowerShell and **Azure Automation Runbooks** to optimize Azure storage resources.
- Led end-to-end **Migration** of on-premise workloads to Azure, ensuring zero downtime and cost optimization.
- Designed and implemented Infrastructure as Code (IaC) using **Terraform** to provision Azure resources via **GitHub Actions CI/CD** workflows.
- Designed and implemented **Azure infrastructure design**, including High Availability SAP HANA deployments, following Azure Well-Architected Framework and best practices.
- Automated RHEL systems patching using Azure Update Manager and fixing the Vulnerabilities.
- Implemented integration of **Azure Alerts** with Microsoft Teams and ServiceNow using Azure Logic Apps for automated incident notifications and workflow management.

PROFESSIONAL EXPERIENCE

HARMAN INTERNATIONAL INDIA PRIVATE LIMITED (CLIENT - BMW) | BENGALURU

SENIOR SOFTWARE ENGINEER II - DEVOPS

March 2025 – Till Now

- Collaborated with development teams to streamline **Jenkins** pipelines, reducing deployment time by 15% and enhancing delivery speed across environments (Dev, Test, Prod)
- Led containerization strategy, streamlining **CI/CD** and accelerating deployment times.
- Monitor system performance and troubleshoot issues related to CPU, memory, disk space, and network.
- Solid experience in developing, managing, and troubleshooting Helm Charts for Kubernetes-based applications.
- Resolved complex issues in **Kubernetes** clusters, including pod failures, resource bottlenecks, and configuration conflicts.
- Worked on Scaled Agile Framework environment and performed end-to-end activities like sprint planning, User story analysis, story point estimation, Daily scrum, sprint retrospective etc.
- Automated Kubernetes deployments by integrating with CI/CD pipelines using tools like Jenkins, **Argo CD**, and GitOps workflows.
- Used **Terraform** to create infrastructure in Azure. Create resources, using Azure Terraform modules, and automated infrastructure management.

PROFESSIONAL EXPERIENCE

HCL TECHNOLOGIES LTD. (CLIENT – ING BANK) | AMSTERDAM, NETHERLANDS

TECHNICAL SPECIALIST

October 2021 – August 2023

- Managed the OpenShift platform and provided Namespace-as-a-Service to over 50+ project teams, enabling faster deployments and optimized resource usage
- Implemented **Helm** charts to standardize application deployment processes, ensuring consistency across environments
- Spearheaded application troubleshooting with stakeholders, cutting downtime by 20% through quicker root cause analysis using Helm
- Engineered **CI/CD** pipelines with **Azure DevOps** for efficient application lifecycle management.
- Administered OpenShift cluster, including user management, troubleshooting, and performance optimization.
- Creating & Managing Deployments, services, routes, cron jobs as per the requirements for the application.
- Managing and Monitoring Nodes, pods, deployments, services in OpenShift Cluster
- Employed **Prometheus** and **Grafana** for monitoring and capacity planning.

EDUCATION

July 2011 - May 2015

PROFESSIONAL EXPERIENCE

ASIAN PAINTS LTD | MUMBAI, INDIA

Solutions Lead

March 2020 – October 2021

- Successfully migrated more than 30 critical applications from a Kubernetes cluster to an **OpenShift** environment, improving scalability and deployment efficiency
- Upgraded existing OpenShift Cloud Platform from v4.3.0 to v4.5.20.
- Modernized On prem applications to containers in OpenShift 4.
- Automated repetitive operational tasks like Etcd defragmentation, cert expiry check, Container prune, Image prune, disk usage and node related activities of node cordon/drain/restarts, improving cluster uptime by 10%
- Route cause analysis for any major incident and collaborated with our RedHat consultant by creating the support cases and follow-up
- Coordinated with infrastructure and network teams to streamline provisioning and maintenance of OpenShift clusters.
- Maintained the infrastructure of 1000 VM's in VMware and databases, monitoring and backups
- Administered **RHEL** servers, including system configuration and storage management.

PROFESSIONAL EXPERIENCE

GROUPS (CLIENT- SNC LAVALIN, CENOVUS ENERGY INC) | HYDERABAD, INDIA

Systems Engineer

November 2016 – March 2020

- Administered **OpenShift cluster**, including user management, troubleshooting, and performance optimization
- Configured RBAC (Role-Based Access Control) policies to enhance security and streamline access management across environments
- Automated the creation and maintenance of manifest files for deployments, services, and routes, reducing manual effort by 40%
- Managed **Oracle database** environments, ensuring optimal performance and availability.
- Executed database administration tasks, including installation, backup, recovery, and security.
- Administered **VMware** infrastructure, including troubleshooting and security management.

B. TECH IN COMPUTER SCIENCE & ENGINEERING

Jawaharlal Nehru Technological University (JNTU) Anantapur, India

COURSEWORK: DATA MINING, OBJECT-ORIENTED PROGRAMMING (OOPS), DATABASE MANAGEMENT SYSTEMS (DBMS), SOFTWARE ENGINEERING
